

Lagondaforum: Distributor cap

Distributor cap

Written by Peter S30 at Nov 30, 2007 8:09 pm

some say the RR/Bentley S1 cap does fit others say it does not, who did a test ? costs 80 GBP or more

DR413 would almost fit, the nose inside the cap that positions it is wrong by 45degree and also the cap looks wrong, otherwise it would fit. e-bay EUR 7.90

attached is a photo of my still usable distributor caps but as you see two spares would be great. Where do you get them ?
