

Lagondaforum: Club Website Member's Photos

Club Website Member's Photos

Written by bruffsup at Feb 20, 2015 3:01 pm

Ashamed to admit I hadn't been to the club's website for a while but was surprised to see so many new contributions to the photo collection. All great stuff. I was blown away by David Bracey's fantastic restoration as well as just about everything else ! It's all very inspiring.

Thanks Barry.

I agree that the website is an excellent thing. many of us are far away from each other and will possibly never meet but through the website we really do become a single family. It would be great if more members posted pictures of their cars in the gallery and shared regular forum posts about what they are doing with their cars.

Well done to the committee for investing in the website and forum. I appreciate that for some of our older members the Internet and computers is a foreign world, but it really is the most convenient way for members to keep in touch in the future.

Best wishes,

David
