

## Lagondaforum: Restoration Project here

### Restoration Project here

*Written by Rich5ltr at Jan 08, 2016 10:28 pm*

<http://www.prewarcar.com/postwarclassic/classifieds/ad190679.html>

if anyone's interested. Be a real shame to see the engine ripped out for a DB3S copy or something and he says that as a Feltham Aston owner!

2.6 dhc sold several years needing a fair bit of work.

See auction link where car sold for ca. £18k. These cars are tough to sell in the USA.

The owner has tried to sell the car through the club unsuccessfully before and also a 4.5 litre M45 based special. Problem with the DB 2.6 litre cars, it that they have a small base of enthusiasts and the design has dated very badly
